RE: IR 90-8(114)443  
Shiloh Road Interchange

# PLEASE RETURN

This letter is to inform you of the intentions of the Montana Department of Highways to develop a Federal Aid Highway project on Interstate 90 (I-90). The proposed project will consist of construction of an interchange providing an additional direct access to I-90 between Laurel and Billings in Yellowstone County. The proposed interchange is presently planned for either the Shiloh Road (FAS 429) crossing (I-90 M.P. 442.7) or connecting Duck Creek Road and 48th Street West (I-90 M.P. 441.5). A feasible location between the Shiloh Road and Duck Creek Road locations may also be considered. Please refer to the attached project location map and the vicinity map.

The project has presently been authorized through preliminary design, selection of a location and preparation of the Environmental Impact Statement. Completion of the project through final design, right-of-way acquisition and construction will be dependent upon anticipated project benefits, impacts and availability of funding.

In addition to informing you of our intentions to develop this project, we would also like to request from you any assistance you can give us relative to information pertinent to this project. Any information regarding problems this project could cause or eliminate, environmental matters, views or opinions for or against the project, or any other matter that you feel might be appropriate will certainly be appreciated. Also, if you know of anything existing or planned that could be affected by this project, we will appreciate your informing us of it.
